Investment Analysis – 20 Gallagher, Shediac, New Brunswick E4P1S8

Amenities:

- · central air conditioning
- air exchanger
- forced air heating (propane)
- municipal water
- · municipal sewage system
- shed
- landscaped yard
- corner lot
- level lot
- · year-round access
- cedar shingles exterior
- basement flex space/potential 5th bedroom
- walkable to restaurants, shops, parks, marina, and Parlee Beach
- freehold title

Notes:

- List price: \$199,900
- MLS number: NB122393
- Bedrooms: 4 above grade
- Basement has a room labeled bedroom (12'5" x 7'11") and an additional flex space (30' x 24') that the listing notes could be converted to a 5th bedroom
- Bathrooms: 1 four-piece
- Square footage: 1440 sqft (above grade finished and total finished)
- Land size: 512 m2
- Annual property taxes: \$2,620.85
- Time on market: 74 days on REALTOR.ca
- Heating: forced air (propane)
- Cooling: central air conditioning and air exchanger
- Flooring: laminate, tile, vinyl
- Foundation: block
- Exterior finish: cedar shingles
- Utilities: municipal water and municipal sewage
- Structures: shed
- Features: corner site and level lot
- Location: downtown Shediac; highly walkable to restaurants, shops, parks, marina, and Parlee Beach
- · Use cases: suitable for families, multi-generational living, and short-term or long-term rental investment
- Sale terms: priced under assessment, quick closing available, sold as is where is
- Title: freehold
- · Access: year-round access

Condition & Defects:

• as-is sale

- priced under assessment
- quick closing
- older foundation (block)
- exterior cedar shingles
- mixed flooring (laminate/tile/vinyl)

Purchase Metrics

• Cap Rate (Y1): 5.76%

• Cash-on-Cash (Y1): -13.03%

• DSCR (Y1): 0.85

• Annual Debt Service (Y1): \$13,471.01

• Acquisition Cash Outlay: \$14,995.00

• Cap Rate - Interest Spread: 1.06%

Forecasting Methodology

We produce **three parallel valuation tracks** and mark the first year where the loan-to-value (LTV) reaches **≤ 80%** (standard refi-ready threshold). All math is deterministic.

1) Baseline (Appreciation-Based)

Property value grows at an assumed annual appreciation rate \$g\$:

 $\$ \$\\$Value_t = PurchasePrice \times (1 + g)^t\$\$ \$\$LTV_t = \frac{MortgageBalance_t}{Value_t}\$\$ \$\$Equity_t^{(80\%)} = 0.80 \times Value_t - MortgageBalance_t\$\$

2) Stress-Test (Rate-Anchored, Conservative)

Anchors value growth to a fraction of today's debt rate \$r\$ (stress stance). If the model uses an adjustment \$Adj\$ to reflect effective basis (e.g., subtracting certain upfronts), then:

\$\$StressValue_t = (PurchasePrice - Adj) \times (1 + \tfrac{r}{3})^t\$\$ \$\$LTV_t = \frac{MortgageBalance_t} {StressValue_t}\$\$ \$\$Equity_t^{(80%)} = 0.80 \times tressValue_t - MortgageBalance_t\$\$

3) NOI-Based (Market-Income Approach with Cap Rate Drift)

Values are derived from income with a drifting market cap rate:

 $\$ CapRate_t = CapRate_0 + (drift_{per_year} \times t)\$\$\\$NOIValue_t = \frac{NOI_t}{CapRate_t}\$\$\$\$LTV_t = \frac{MortgageBalance_t}{NOIValue_t}\$\$\$\$= 0.80 \times NOIValue_t - MortgageBalance_t\$\$\$\$

Notes

- Seasoning: refi checks typically begin at Year 1 or later (configurable).
- We use end-of-year balances and values for consistency.
- LTV comparisons use a small epsilon to avoid floating-point edge cases.
- This report shows the full horizon; refi years are marked when available.

Investment Thesis

- Verdict: CONDITIONAL
- Rationale:
 - Year-1 DSCR 0.855 and cash flow -\$1,954 indicate negative carry; purchase COC is -13.03%, unacceptable without mitigation.

- Entry cap rate 5.76% with a 1.06% spread vs. rate is below a 1.5% target, implying a thin risk premium for an as-is asset.
- Negative cash flow through Year 5 and DSCR < 1.0 until Year 6 create liquidity and lender risk.
- As-is sale, older block foundation, and cedar shingles elevate near-term capex risk; no reserves are modeled and utilities are set to \$0 despite propane heating, risking NOI overstatement.
- Subscale single-door asset concentrates income risk in one tenancy and heightens vacancy/turnover exposure.
- Location strength (downtown Shediac, highly walkable) and 4–5 bedroom flexibility support rent growth and potential STR upside if permitted.
- Projected 10-year IRR 15.91% with improving cash flow (to ~\$2.6k in Year 10) and substantial principal paydown is attractive if entry and financing are optimized.
- Priced under assessment with 74 days on market suggests negotiation leverage for price reduction or seller credits.
- Proceed only if purchase price and/or financing changes reduce annual debt service by ~29% (to support DSCR ≥1.20) or increase stabilized NOI by ~\$4,650 to meet DSCR ≥1.20 and achieve at least breakeven Year-1 cash flow.
- Validate zoning/permits for STR and basement bedroom egress; complete full inspections (foundation, exterior envelope, HVAC), obtain repair bids, establish reserves, and re-underwrite with realistic utilities before closing.

30-Year Pro Forma (Summary)

| GSI | GOI | Total OPEX | NOI | Debt Service | Cash Flow | DSCR | Ending Balance |
